An excellent opportunity for any discerning buyer to obtain a bonded hull and deck unit for what is believed to be the last motorboat designed by the renowned designer Renato "Sonny" Levi, using his iconic deep "V" performance hull. Renato 'Sonny' Levi is acknowledged as the primary innovator and influence of modern powerboat development and his designs were far ahead of their time. The understated elegance and proven race performance gave Levi

powerboats a pedigree that has never been equalled. Amongst his previous achievement were designs for the Aga Kha, the Shah of Iran and the British entrepreneur Richard Branson.

Moulded by Rapier Boats in Marchwood near Southampton, the Rapier 33 incorporates the classic Levi deep "V" hull which is considered by many enthusiasts to be perhaps one of the most outstanding performance hulls in the world. It comes complete with many deck fittings including a stainless steel pushpit and windscreen and would be a perfect build project for any Levi enthusiast with the facilities to complete the fit out.

The bonded unit is available for viewing at Northshore Boatyard in Itchenor, please call us for an appointment.
